

# The LOOONG LETTERS

## March 2017

Another month has come and gone and the kingdom of God is expanding!

Bro. and Sis. Stow, Bro. Savieti, and my wife and I enjoyed a weekend of evangelizing on the island of Eua with Pastor Inoki. The Stows had met Tovi, the owner of the motel where we stayed, on an earlier occasion at which time she invited them to come to visit her. We had a great time of fellowship with her and her family, and were able to share the plan of salvation with her. She graciously offered a large, roofed porch to us in which to have a service on Sunday. I was able to show my bible study to a number of friends she had invited, and, that night, helped Bro. Inoki baptise four people in the lovely name of Jesus.

Monday night, after another power point presentation, this time by Sis. Stow, four more were baptised!

Kulisa (in pink) and Lotomo'ue(in green)

March 20<sup>th</sup>, we were invited to go with Bro. Sefo and his wife to a home group with which he has been working. There were 12 present, and, at the end of my presentation, Sis. Ofa and Bro. Takilesi expressed their desire to be water baptised. Tuesday evening we went to the ocean and assisted Pastor Vacapuna in baptising them.

Ladies' conference was a great event with two receiving the Holy Ghost. Sis. Downs and Sis. Harvey from Australia were the speakers, and, my wife testified. I was privileged to preach Sunday morning, which was an open fellowship for both men and women.

On a more mundane level, we were also able to purchase a 2000-litre rain tank and install it at the back of the Headquarters church. This was funded with money donated by several churches from our home district in New Brunswick. It will be a great help for the people who attend the bible school and the church here.

We will be heading up to Ha'apai and Vava'u islands for outreach and revival meetings in the beginning of April so please pray for us and the churches there.

God bless,  
Bonner and Laura Mae.
