

HUNGARY APRIL

Times of refreshing, & reconnecting.

We had service on April 9th with 20 people in attendance. Brother Patterson preached and I interpreted the service. Great move of God and great prayer meeting before the service.

Hungarian Easter tradition: Traditionally on Easter Monday the boys and men visited the girls and women, recited a poem and doused them with buckets of water to ensure they become good wives and bare many children. In exchange for the dousing the girls would reward their visitors with painted Easter eggs. Today, perfume is sprinkled on the women instead of water. As I went with my friend from house to house it was a great opportunity to share my testimony to people.

During Easter, we visited the Western part of the country, in Komárom, where we shared our testimonies and God's word with family and friends.

The last week of April, we visited the Eastern part of Hungary in Eger, where we shared our testimonies to family and friends. Please pray with us for Komárom and Eger, we believe that there will be churches established in those cities and in many more city in Hungary.

Our enemy may hope that we give up and die. As Christ is risen we shall be alive with him also, born again filled with his spirit, and declare his works while we are here on earth everywhere we go, whether its family or friends that we testify to or a complete stranger. "I shall not die, but live, and declare the works of the LORD." Psalms 118:17

Thank you for your continuous prayer and support. God Bless! Sincerely,

Robert and Krisztina Cseh, Budapest Hungary.
