Greetings from Japan!

June proved to be a busy and exciting month!

Earlier this month, our girls youth day ended with a Baptism. Our new friend Saya is a coworker of one of the pastors. She came just to meet some new people and have fun. During our time with her we started sharing what God has done in our lives. We watched as she opened up and started to realize God loved her and that he could change her life too. As we were heading home she decided she wanted to be Baptized. The night ended with a Bible study on the beach and Saya being born of the water! She's started coming to our youth home group and I've started teaching her English. Pray for Saya, she is so open and hungry to know more about God and is seeking the Holy Ghost.

I was also privileged to travel with an amazing team up north to the island of Hokkaido. During this time, we were able to pray over some of the cities and spend time with our contacts in Sapporo. We had a great time of prayer and fellowship with these precious people.

God is truly working across Japan; people are being baptized, filled with the Spirit, and encouraged by the truth in Okinawa all the way up to Hokkaido!

Yours for the Kingdom,

Tricia

Our time in Hokkaido started with prayer walks/drives through the west and south side of the island. We were able to pray over the cities of Otaru, Hakodate, and Sapporo. This is a beautiful area, but the reality of not having an apostolic church in all of Hokkaido gave it a sense of hopelessness. As we prayed, we could feel Gods love for this area and these people. God is getting ready to do something amazing in Hokkaido!

We had a powerful time of prayer and communion with our preaching point in Sapporo. Enjoyed spending time with the Shinohara family and believing God is answering the prayers prayed that day.

I've never had church in a kitchen, but I'd be happy to do it again! God met us among the pots and pans proving He will meet us anywhere there are people hungry for Him.

Exploring new places and experiencing new things is always exciting, but there is nothing like building relationships with people who are truly hungry for the light and love of Christ. Meeting people, hearing their stories, seeing their hunger; these are the experiences that change passion into burden.
