

AIM to Germany - Update Newsletter

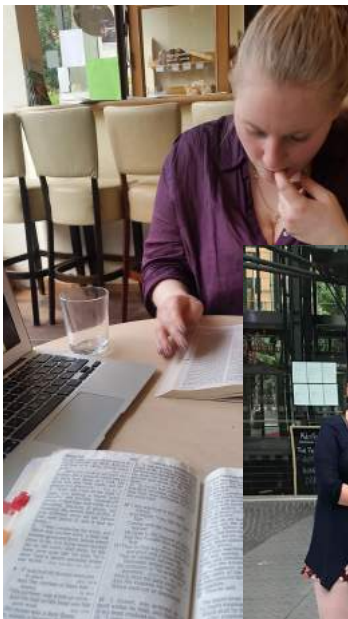

The past month has been an incredible time of harvest for Berlin, Germany!

While prayer walking the University of Potsdam in Potsdam, Germany the Lord had us cross paths with another international campus outreach organization. It was completely a God-ordained appointment! We found out that this

organization was evangelizing on University campuses throughout Germany to help “plant seeds” in the hearts of University students to get the conversation started on Christianity and who Jesus was. HOWEVER, they had nowhere else to send them after exposing them to Jesus – we told them

that we are actually doing weekly Bible studies at universities throughout Berlin!

They have, since our meeting, connected us with many students who are hungry to have a relationship with Jesus Christ!

Less than 2 months ago there wasn't an Apostolic presence on any University campus in Berlin, but *now we are having not only weekly campus Bible Studies at the **Eberswalder University of Applied Sciences** but also 2 weekly Bible Studies with students at the **Freie University***. We praise God for the hunger of these students to know their Creator! However, there are two other campuses that we believe still need to be reached! Join us in prayer that the Lord will open the doors of Truth unto the **University of Potsdam** in a neighboring city of Potsdam, Germany as well as the **Humboldt University** in Berlin

We loved having the **Showalters** who are the Global Campus Missionaries, leading one of our weekly Campus Ministry Bible studies for us! We were truly blessed by them and their sweet granddaughter!

Humboldt University (Left) and University of Potsdam (Right) both needing an Apostolic presence on these campuses. ***Pray that we will have contact with students that are hungry for Truth!***

Youth outing with the Life Center Berlin Youth group! We love our young people who are our next generation of teachers, evangelists, pastors and soul-winners!

It was a privilege to be able to attend a portion of this year's **Youth on Missions in Barcelona, Spain!** It touched my heart to hear and see so many young people expressing a burden for the world and specifically the EME region!

*Thank you to every PIM and sponsor!
Without you, nothing above would be possible without your support!
I praise God DAILY for incredible supporters who have a burden the souls in Berlin and throughout Germany!*
