

# Monthly AIM Report Namibia - Amy Riggle September-October 2017

# During the past two months, many great things have happened!

## SEPTEMBER

Our 3 ladies conferences were simply amazing! God moved mightily in each one of them! I got the privilege of speaking to the young, single women on the subject of holiness. In the process, I gained many new friends!

The Ikerd's and I were able to visit the orphanage and deliver bread to the children there. The Ikerd's were also able to help the owners of the orphanage get started finishing the standing building on their property. Once the building is finished, a portion of the children will be able to sleep in a safer structure, rather than in a shack.

After returning back to Namibia from being sick at home, I have gotten more involved with the Cancer Association of Namibia. This has allowed me to help people in a new and different way than I ever have before.

The GATS program was launched for the 2017–2018 year. With a decent attendance in classes, I have high hopes for the future!

## OCTOBER

With the Cancer Association, I was able to visit children with cancer who were in the hospital. They were eager to greet us with many warm hugs and big smiles! Their joy in the midst of their struggles was deeply inspiring.

October 22nd, at Windhoek UPC, 6 people were baptized in the wonderful name of Jesus Christ! Revival is happening in Namibia!

The Cancer Association of Namibia invited me to go with them on a 7 day medical outreach trip throughout southern Namibia. On this trip, we screened hundreds of women for breast and cervical cancer. We also screened many men for high PSA levels.

**God is doing big things in Namibia! I can't wait to see what is yet to come!**
