

My second month of the next steps I went with five other girls to Edinburgh, we were with the beaks and did various things to help out their Church. We helped out in Sunday School music we also did prayer walks and we passed out close to 10,000 Flyers. The last Sunday we also got to participate in a All Nations Sunday and we got to eat all kinds of delicious food made by the members of their Church. We also had some free time where we got to explore Edinburgh more doing things like hikes and taking an Underground Tour. A couple of us also met up with some girls from another group and we went down to London for the day. This has all been an amazing experience and I would love to do something like this again!
