Liverpool, Nextsteps

Apprenticeship

Time to work.

During the month of July we were given the opportunity to experience some of the day to day activities that missionaries are involved in. This was a time for us to put in to action what we have been taught. While I was in Liverpool I was given the

opportunity to help and support the missionary and the church in many ways. The time that I spent in Liverpool impacted my life in so many ways and changed my life in ways that I had only dreamed about.

Liverpool

While in Liverpool my heart was stolen by a city and people that I barely knew. If I was given the opportunity to do it all over again I would in a heartbeat. This experience changed my life from the friendships made, the time spent working, to the words that were spoken into my life

this is a time and place that I will hold close to my heart.

Liverpool at a glance.

...

While I was in Liverpool the church and the Hemus's experienced many wonderful and difficult changes. During my time in Liverpool the Sunday school theme changed, the marriage of a vital member happened, there was a death in the family, and so much more. At first glance you would think that this was a horrible time to be in Liverpool and at times it was difficult, but it was also a blessing not only for the church, but for myself and Sabre as well. During this time we were able to fill in in the community center office, help with the changing of the Sunday school décor, given the opportunity to speak in service, and do task around the church that freed up the Hemus's time.
