JULY 2017

A Quick Review

During our time in Dublin, we were able to experience different aspects of establishing a work. We were part of home bible studies, Sunday School, and music ministry. As a group we were blessed to be apart of many firsts for the church. The three girls were able to participate in the launch of a weekly girls bible study. We were all apart of the first Friday night weekly home bible study, where a great connection was made with an Irish immigration officer. We helped Sis. McFarland with prepping meals for bible study and a fellowship with other missionaries. We connected with the youth of the church and will be looking forward to following their progress as they grow.
