

# MALAWI NEWS

Beth Benoit | AImer to Malawi, Africa

## Upcoming Events

Next month we have the Malawi Prayer and Fasting Conferences taking place.

Pastors from all across Malawi will gather to go deeper in prayer for their country. I can't wait to report back with what God is going to do!

## Mount Mulanje

This month the Gibbs family took us out to explore around Mount Mulanje.

Mount Mulanje is completely surrounded by beautiful tea plantations.

Malawi exports their tea all around the world. Next time you have a cup of tea you should check and see if it has Malawi tea in it!

## Greetings from the Warm Heart of Africa

Happy New Year! I am so excited about what God is doing so far this year and what He will continue to do! I know He has so many great things in store. Here are some things that happened this month in Malawi.

### *Ndirande Service*

This month we were able to travel to Ndirande to be in service with Brother Chipango.

Ndirande is a densely populated area with an estimated 250,000 people living within a four square mile space. Because of this, church here is being held in an elementary school until they can purchase land to build their own church building.

I had the opportunity to teach Sunday School while in Ndirande. My favorite part is how excited the kids are to sing and learn about the word of God. They packed our little classroom to the max!

Here the Sunday School class is holding up their craft. We learned about the days of creation. They loved having a little book to bring home with them to show their family.

### *Apostolic Life Centre*

This month we were able to attend Blantyre Headquarters church. Headquarters church pastor, Bro Kanjo, reminded us of how God poured our His spirit in 2017 and he cast a vision that 2018 is the year to have the entire church filled with new souls!

I was so thankful to be able to hear Sis Gertrude Luhanga speak at ALC this month. Sis Luhanga is a member of Apostolic Life Centre in Blantyre. She shared her amazing testimony of how God had kept her, provided for her, and granted her favor at her job. I will forever be impacted by the faithful, hard-working women of Malawi..

### *Malawi Rainy Season*

Rainy season has finally come full-force in Malawi this month. We are so thankful for the rain because it helps with how much electricity we get throughout the day. So we never complain even when we get caught in the rain.
