

AIM4Japan 2018

January Report

By AIMer Brett K. Potts

Okinawa Arrive....

Arrived on the soil of Okinawa, Japan. Japan is a fascinating country. It is steeped in mystery and hundreds of years of history. Less than one Percent is Christian with even less being Apostolic. It is truly a revival country.

Training Teachers....

With the growing increase of Revival here in Japan it is essential to train the ministers and teachers to teach. Leading the charge in this latter-day outpouring in this country these leaders get instruction to take the hope of the Gospel to other points in Japan and aboard. The Gospel is being spread through Asia!

Planning for Revival

One Part of Revival is planning. In order to reach the lost we must have a plan. Brainstorming ideas and tactics with other Church leaders helps the missionary know what's working and what doesn't and what we still need to try.

House of Prayer...

Prayer is the key interment in the revival harvest of Japan. The team seeks God in order to grow closer to him and share his heart of seeing Japan raising it's hands in worship to the one true King.
