

# March 2018

## David Cadd--Madagascar

This month was dedicated to the teaching seminars in the capital city. We took two different locations and spent a week each teaching on how to teach. The response was quite large we handed out hundreds of certificates to those that attended all the sessions. We are getting prepared for the travel season to start, our first trip will be to the far south. It will be three days by bus, pray for our safety we will be going many places in the next few months for regional conferences and continued teaching seminars.
