

# Latvia AIM Report

June 2018: Andrew Mollett

**Week One:** I arrived in Ventspils on June 1, and spent the next several days resting and getting acquainted with the city. The following Sunday, we had service with Luke and Larissa Havens before they left for deputation. On the 7<sup>th</sup>, we began RBD training with Bro. Erickson and Abigail Trapani. The training lasted for three days and we learned things like how to pray for someone to receive the Holy Ghost, how to pray

for someone to be healed and tactics of evangelism and spiritual warfare.

**Week Two:** We then began our week of prayer and fasting for the city of Ventspils. We spent this week doing prayer walks throughout the city by walking through the city in teams of two and binding the spirits ruling in that area. At the end of the week, we had a service where Kyle Christian came and ministered to us.

**Week Three:** This week we started evangelism. We spent each day out in the city trying to meet new people and make contacts. We met several people at different cafés and stores and began building a relationship with them and praying for them that God would give us an open door to minister to them or start a Bible study. I also went to my first celebration service in Riga, along with all the other AIMers in Latvia as well some of the people from other churches in other parts of the country.

**Week Four:** We spent a day this week in a training session with Mark Shutes where we learned about the love of God and allowing it to work through us as we minister. We then continued evangelism and made some more contacts with people. The students from the RKR Training Center in Riga were also with us this week and helped with evangelism while they were here. We spent a day walking through the city in groups of three meeting new people and inviting them to the special service we were having the next day. We ended the week with a service with the RKR students.
