

TODAY'S NEWS

THE WHOLE GOSPEL | TO THE WHOLE WORLD | BY THE WHOLE CHURCH

Time to Serve

In July the next steps team assisted in multiple Compassion Service International medical clinics. Over 100 people were seen and many connections were made with the people.

Time to pray

God is certainly moving in the land of Sri Lanka. In Haputale we were given the privilege to host a public prayer service in the park. We prayed over the future churches and members of Haputale and asked God to give us the land as he gave Joshua the land.

Time to step in

Its time now for every person in the church to take a step in to the supernatural. It's time to move on your faith in God and watch him open doors for his word to go forth. God stepped in and we followed him into the mountains of Sri Lanka to bring the Gospel to many tea pluckers families and villages.

Building the Kingdom one generation at a time.

Sometimes it life it can feel as if we as the adults have to carry the load. It feels as if we must have the answers to all life's questions and to an extent I believe we should. Let's keep in mind though that the word of God says except we be as little children we cannot enter the Kingdom. Pictured above are multiple first, second and third generation Apostolics. They may not know all the answers as I myself do not either but they sure do know how to love with all their heart. They know how to persevere in times of hardship. They how to believe in every word that God speaks!

The first day I met Pastor Bala I knew he was a mighty man of valor. His passion for souls and God overflows! Being able to be a part of his ordination service was a blessing! Many were blessed, a few received the gift of the Holy Ghost for the first time. Not only was my life changed that day but I believe God is working on every heart that was there. I invite you to pray for Pastor Bala and the work God is using him in. Pictured below from right to left is Pastor Bala, Bishop Mathiasz and myself.

My heart has always held a soft spot for children. For the way that they can look at you and make your heart melt. For the way that when you speak God's truth into their lives they hang on to your every word. I was blessed to spend multiple days playing, sharing, teaching and loving the children God placed in my path. Not okay was I able to bring God's love and hope to them and many other children in Sri Lanka. They brought love and hope to me. They brightened my day and acted as the light of Christ! We prayed together, we laughed together we ate snacks together
