
Latvia AIM Report

Molly Trapani - Vision Ventspils

August 2018

-We were able to make a contact during the towns celebration named Dmitry. He came to our game night and we were able to connect him with the AIMers in Riga. Also we spent time connecting with people in the city of Ventspils during the towns celebration. We had a powerful move of God at our team service.

- We started the week with team meetings and RBD 1B. We evangelized with young people at the local coffee shop. We welcomed Rachel Brush to the team and began to teach her about evangelism. I connected my contacts with AIMers who would remain on the field after I left so we could continue to teach them. We also had evangelism in a park where we connected with more contacts

- We had our last team service before we left and each of us shared our testimonies about what God had done in and through us during the past three months. After all of our contacts had been connected with other team members we said goodbye to the beautiful city and people of Ventspils Latvia as we got on a plane and headed home to Bible College.
