December 2018

Greetings from Miyako,

This past month was a pretty relaxing month here in Miyako, and I can feel God has just been refreshing and encouraging myself and others that attend the preaching point. We have had lot of new contacts and connected with some old contacts from a while back. It's also great to report we had an awesome Christmas party with lots of visitors attending and fellowshiping through the night. We are still looking forward to the harvest God has intended for the people of Miyako. God bless and hope the New Year has started well.
