

Miyako Aim Report

Travis Craig
Associate Missionary
Japan

Greetings from Miyako,

I must first apologize because I forgot my January report, but I will incorporate both January and February together in one.

Anyhow during the month of January, we had a 3-week period of Daniel fasting and had wonderful prayer meetings every day at the Miyako preaching point. It was a time where we all grew spiritually, and God was speaking to each of us on things in our lives that we could change and be delivered from. Also, in this January we were able to visit one of our friends in the hospital to pray with him and just to hang out. Even though we were fasting and in prayer the level of spiritual warfare we go through on the day to day hasn't diminished, but we were and are encouraged to keep pressing on knowing Jesus is in control.

February brought us the opportunity to again visit the hospital and pray with our old friend who has fluid in his lungs. It was such a wonderful experience to see him full of joy out of nowhere after just a short prayer, handshake, and about 45 minutes of fellowship.

We were also blessed to have a gentleman by the name of Bro. Wigginton come and preach here in Miyako. He was used in a wonderful way and preached in faith which resulted in God healing my back in a wonderful way. We also had 4 Japanese who were in their first church service ever and got the experience of seeing people prayed for and the evidence of the Holy Spirit for the first time. God is doing great things in Miyako, and I can't wait to send the reports of people being filled with the Holy Ghost and being baptized in Jesus' name. God bless you all and thank you for your continual prayer support and doing a great job state side.

Bro. Craig
