“Some go by giving, and others give by going.”

Whether you are new to missions, or have been a part of missions for quite some time, I can imagine every experience is different! One thing I did not expect was the business of the city of Athens, where I am living. Home to me is much more calm, community based, and convenient for those who love Walmart. Being in a different country and living like a “local Greek” is very new to me, but it has been an exciting adventure. Stepping into the unknown is

something you might find yourself doing often when you give your life to God. It can be scary when YOU are not in charge. If I could help anyone prepare, I would say that **your relationship with God is going to be the one thing you depend on the most while you are overseas.** I am around people frequently, but no one is “home” like Jesus. You must have a strong relationship with Him before giving yourself in the way of missions. You will be in a new place with a new pattern of life, but trust that God is teaching you in each moment.

Proverbs 3:5-6

A MOMENT OF CHANGE...

My very first service here in Athens was coming to a close. I was so blessed by the worship at the beginning, The Word we received during, and now altar call... but this one was so different. The people around me didn't look like me, they didn't speak English as their first language, and they were so **passionate**. I saw souls from all around the world, each one so unique, but all worshipping **ONE GOD**. The Holy Ghost was moving in such a powerful way and so many were responding. *Their hunger was desperate*. God was there and no one missed a moment to reach out to Him. The thing is, we all need God. Sometimes we make excuses for why we don't spend more time with Him, or truly give up our lives to live in the way He intended, but when you see this... it changes you. Some people here are not allowed to pray in their own homes due to a variety of reasons. I'm learning to never take time in His presence for granted and that giving myself to Him in every way I can is a **blessing**, not a burden.
