

# Miyako Aim Report

Greetings from Miyako,

The month of April wasn't anything to exciting, we are still hosting several cookouts and potlucks at our home every month and meeting weekly for church on both Wednesday and Sunday. I have been able to reach out to some old contacts and have fellowship with them and we are finding that lately there has been a stronger push to get out and do more outreach in the community. God has also opened the opportunity for me to share some information about the Holy Ghost with some of my English students, which is awesome. We know God is continuing to move through this little island that we are laboring, and we continue to look forward to the harvest that is at hand. God bless you all have a blessed day.

Bro. Craig
