Latvia AIM Report

June 2019: Andrew Mollett

Week One: I arrived in Latvia on June 1, and began a week of training the Monday after I arrived. We spent the week going over all of RBD course 1A, learning about things like tactics of evangelism and spiritual warfare, how to pray someone through to the Holy Ghost, and how to pray for someone to be healed. We saw God perform many miracles this week, as we applied what we had been taught and prayed for

people to be healed. I concluded the week by starting evangelism in the city of Jelgava with my teammates there and having our first team service.

Week Two: My teammates and I started this week with a three day fast for the city. We spent this time in spiritual warfare for the city of Jelgava and also doing prayer walks throughout the city. After finishing our fasting and prayer walks, we continued with evangelism and made many new contacts with people we met in different parks and shops.

Week Three: We started the week by attending the EME Campus Ministries Seminar. This week we also attended the Oneness Conference in Riga, where pastors (both trinitarian and oneness) from all over the world attended to hear Bro. David Bernard teach. We ended the week with a celebration service with all of the other AIMers in Latvia as well as many of the church members of the works already started in the country.

My teammates and I at a coffee shop in Jelgava on one of our first days of evangelism

Our first church service, held in our team leader's apartment

Week Four: We spent this week continuing evangelism and making more contacts with people throughout Jelgava. We also took this time to reconnect and meet up with many of the contacts we made in the previous weeks. At the end of the month, we held our first service in Jelgava with Luke and Larissa Havens and also had three Latvians in attendance!
