

Greetings in the name of Jesus Christ !! pray all is well with all. We are continuing with our home meetings. We have been having some large turnouts in the last couple of weeks and a handful who have been coming on a regular basis. We are going to buy some more chairs next week to fill the need, we have a very poor village next to us many of the people who come are from the village. We are still doing our Street outreach every Thursday feeling those who are struggling in our area. We have some come to our meetings from this also ,Pastor Binhats church who we were working with has been shut down to be used as an office for the GPSDI /UPC Indonesia(Politics) He has to move and build another church in a village somewhere else, we are not sure what the future holds in us still working with him since the change or locations and the church being in a village and being further. We have not really heard much from him since the move. Pray God give us direction in that situation and other doors may be opened.

God bless you all keep us in prayer,

Steve & Amelia Sparks Sparks
