

June 2019

Sierra Leone

It has been an exciting month in Sierra Leone! The week of my arrival there were board meetings and training, then a ministers and wives seminar, and evangelistic services running

from Saturday to Pentecost Sunday to conclude the week. I spent most of my time helping Sister Riddick wherever possible, learning more about the history and culture from her, and we attended the services where over 50 souls received the Holy Ghost! The following week we traveled to one of the provinces to see the progress on a church that is being built, went to the Bible school, and ministered at one of the local churches on Sunday. I was given the opportunity to lead devotion at the Bible school at the beginning of class and I taught Sunday school that week. The following week, we had the Bible school classes again, where I did another devotional. I also started doing homeschooling work with Gentry that week. One of my favorite parts of the week was Saturday evening. On Saturday, we went to the headquarters church and sat in on their music practice. I learned a little bit of a song in Krio and they invited me come back so that when I go home, I'll go knowing some Krio songs. They also asked if I would teach short lessons when I go in the future so I am very much looking forward to going back. During the last week of the month I have continued doing homeschooling with Gentry and have been working on a typing project for the Riddicks. There are some things like putting together Sunday school lessons, working on devotions for the Bible school and typing projects that aren't specific to a certain week, they are things that I will be working on throughout my time here. It has been an amazing month and I look forward to what next month will bring!

Giving away suckers at the church building site in one of the provinces

The ministers and wives seminar
