The Elijah Encounter was phenomenal! Though it was only a weekend long, the effects will go on in the lives of those who attended for years to come. Many people were instantly healed, and one received the Holy Ghost. Prophecies were received, and tongues and interpretation were spoken. The best part was when those attending went to the streets and practiced what they had been taught. People were instantly healed on the streets. I left challenged, encouraged, and changed. We must go to them.

Teaching at the United Pentecostal School in Tema has been challenging, funny, and rewarding at the same time. The first and second grade students correct my spelling often as they use British English which spells words differently. I'm now teaching Bible classes every Friday. Our first week, the kids learned what the Old and New Testaments are, and how the name of God is Jesus. To me it was simple, however, seeing their jaws drop and eyes open wide as they received understanding is an image I won't forget anytime soon. They learned all 27 New Testament books in one class with great excitement. Please pray for the students as this is a great door for us to reach those who do not yet know the truth.
