

AIM Report for the month of July

- Throughout the month of July, I spent most of my time running back and forth with the university. I was finally able to get the whole application process completed however and now I just await the results concerning my acceptance. If it is the Lord's will then I will be accepted if it is not so, then it will be denied, but I am hoping for the best.
- Through the acceptance letter from the university, I am able to open a bank account and receive a student resident permit effective for 6 years, if that does not work then I will continue the residency process as before.
- During the time that I was not getting things together for the university, I was evangelizing with my team in the parks of Riga, and connecting with contacts.
- During evangelism, I also helped in training others AIMers in evangelism as well as learn from what they know,
- One contact or friend invited me to have dinner with her Latvian family which was a huge sign of trust from them and I am expecting great things to happen in the future.
- From the 30th of July until the 5th of August, I traveled with Abigail Trapani to Poland to visit the AIM team in Warsaw. During the time there we both spoke into their lives and helped them to overcome the difficulties they had been facing. We also aided them in finding connections in Poland in order to further their ministry in Warsaw.

Thank you, and God bless you always.

Sincerely,

Aurora Gonzalez
