

AIM to Latvia  
Nick Wallace  
July 2019

**July 1-7** The week began with a prayer meeting. God's desire to talk always amazes me. We made several contacts and reached out to many people we had previously met. We attended many meetings this week, a July 4th celebration in Riga with all the AIMers, and more RBD training. I had the opportunity to preach Sunday morning, a new and learning experience!

**July 8-14** We went out to meet people, and meet people we did! More volleyball, more walking, more learning. I watched some contractors laying brick sidewalk, and had some interesting "conversation" through a slight language barrier. We had fun. Sunday, at the end of service, God moved in a special way while we waited on Him.

**July 15-21** We were blessed with the opportunity to have Brother Craft, retired missionary to Europe. It was inspiring to see his continued burden for missions as well as his desire to share what he has learned with the AIMers here in Latvia. We also got to visit a "VBS" held by one of the local churches in Ventspils. God is still in the prayer answering business. Last summer the AIMers attended a worship-in-the-park event put on by the local churches and they talked about how exciting it would be to be a part of it someday. This year we were asked to help by leading in worship and aiding in child care. God moved through that park as we worshiped and we know that HE is still working!

**July 22-31** We went through more RBD training, hung out with contacts, toured castles and music schools, met more young people, played volleyball, fellowshiped, scavenger hunted, and ate food. As I type this, I am 11 days from heading back to the U.S. I am excited to go home, but at the same time I don't ever want to leave this field. I am so thankful for everything God has done, and is still doing!
