

Report for August

- I finally got accepted into Rīga Stradins University to be able to study medicine! This means I am one step closer to being able to open clinics in difficult nation's allowing me to work freely bringing many to the Truth, and I am right where I need to be to be able to work with university students!

- As soon as possible I began to build connections and relationships with fellow students. Interestingly, this semester has been the most international group the university has ever had. This being said that means the students came in from all over Europe, South America, Africa, across the Middle East, India, Sri Lanka, Russia, and 2 from North America!

- I was able to establish a trust with my study group that they even decided to celebrate my birthday with a small celebration and surprised me with a birthday gift.

- I am still waiting on the response to open a bank account from Citadele, hopefully I will be able to do so in this coming month

- I began the residency process through the university as a student, but I'm still waiting on a few things like getting a Latvian bank account to be able to complete it, hopefully it will be done before the month of Sept is over.

- I began my classes/ studies for the semester, so I will probably become more busy but the good thing out of this is that this will allow me to be even closer to the students and be able to influence them more.

- I also helped with the AIMers coming in by taking them to their apt. and helping them with transportation/phones for RKR.

This has been an amazing and eventful month and I cannot wait to see what will happen later on. I am believing that there will be relationships created in the university where students will begin to hunger for truth, and it won't be long before they receive salvation and become established in the Truth.

God bless you always,

Aurora Gonzalez
